

# Let's take a look

With the Version 1.2 release, Vscan offers faster workflow, improved reporting and enhanced usability.

## DEVICE

- Up to 50 % more scan time compared with the Vscan® Version 1.1 release
- New intuitive user interface, enabling fingertip control and faster workflow
- Enhanced contrast resolution allowing for crisper images of abdominal and OB presets

## GATEWAY SOFTWARE

- Link images to patient data with the new PDF export option<sup>†</sup>. This allows for more convenient, and improved documentation to aid in your evaluation and management of the patient

<sup>†</sup>Not for China

## PORTAL & SUPPORT

- New three-year warranty is now standard
- Vscan customers have access to GE Healthcare's award-winning service
- New web portal with enhanced activation process enables you to start scanning faster
- Expanded online educational resources and image libraries

# All at your fingertips

In addition to the Vscan device and gateway software, the Vscan portal provides you with a wide range of online services to enhance your Vscan experience.

- Clinical and product education along with guides to offline resources
- User groups and networking
- Economic and clinical evidence and guidance

To further enhance your Vscan experience, additional resources are also available including:

- InSite® remote service tools
- Regional phone support centers
- Professional depot services and extended service offerings
